Crest Building Products suppliers of high-quality facing bricks and roof tiles.

Crest Building Products are one of the UK's leading suppliers of high-quality building products. We offer an extensive range from which customers can choose from our superb collection of clay-facing bricks, roofing tiles and PV Solar Systems. All are designed to complement and enhance any type of build. From our exclusive collection, we are happy to advise and coordinate the supply from specification through to nationwide on-site delivery.

Crest is delighted to support the 2023 Huws Gray Brick Catalogue and supply building products across the group. We have developed strong working partnerships which have been built through mutual respect over many years.

To find out how Crest can help you transform your project into something exceptional or to order a **FREE** sample visit our website.

## THE IBSTOCK TRADESMAN® RANGE TRADITIONAL FINISHES FOR THE MODERN BUILDER

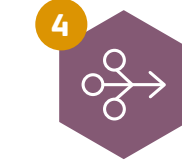

**1 Price**  
All products are competitively priced enabling our customers to compete on every project without compromising quality.

**2 Durability**  
All products are rated F2, ensuring that they can be used in any application without fear of damage from extreme weather.

**3 Range**  
Replicating traditional aesthetics, the Tradesman range provides high quality modern solutions for traditional builds.

**4 Mixed loads**  
The Tradesman range can be conveniently mixed to make up a full load, making stocking easier for merchants with less yard space.

**5 Product consistency**  
Consistent colour, texture and quality, giving customers confidence in the long term, both for depot stock and sites.

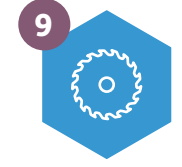

**6 Low breakages**  
With very few breakages across the entire Tradesman range, this saves our customers money with wasted products.

**7 Special shapes**  
Ibstock Kevington's Cut & Bond service ensures customers can offer solutions where a non-standard brick type or size is required.

**8 Support**  
Range supported by samples, literature and it's own website – customers have the support they need to promote the products.

**9 Perforations**  
Product perforations make the product easier to lay and cut when required – ensuring projects can progress quickly.

## Creating Tomorrow's Heritage

Established in 1845, Furness Brick is an independent, family-run brick manufacturer. We specialise in the production of traditional pressed and clamp facing bricks. Centuries of brick-making expertise enables us to manufacture bespoke blends weathered bricks, non-standard and imperial sizes in a wide variety of colours and textures.

# WE The Ibstock ESG Strategy 2030 WILL

Our guiding purpose is to build a better world by being at the heart of building. To achieve this, we have developed an Environmental, Social and Governance Strategy, our **ESG Strategy 2030**, simplifying the way we articulate our goals and ambitions.

### Addressing climate change

Decarbonising our products, processes and supply chain by focusing on carbon reduction, water efficiency and biodiversity gains to achieve 40% reduction in carbon by 2030 and be Net Zero by 2040.

### Manufacturing materials for life

Evolve our products, processes and services by incorporating whole life cycle design, preserving raw materials and future proofing our offer to customers through a diversified portfolio.

### Improving lives

Building our social value by investing in our people, our culture and our communities. Ensuring our colleagues belong, thrive and grow and that we make a positive impact in the communities that we operate.

CHOSEN FOR CHARACTER  
ESTABLISHED 1925

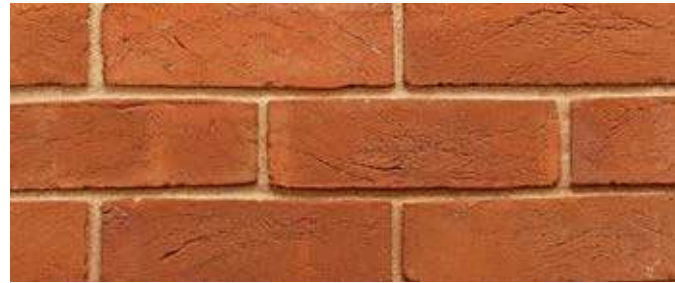

## Five reasons to use Northcot Brick for your next building project

- 1. Durability:** Brick is a highly durable material that can withstand harsh weather conditions. Bricks will last for many years with little maintenance.
- 2. Energy efficiency:** Bricks are good insulators. They can retain heat in the colder months and keep buildings cool in warmer months reducing energy costs.
- 3. Sustainability:** Bricks are a natural and renewable resource making them an environmentally friendly choice. Bricks and their packaging are also recyclable making them a sustainable option.
- 4. Aesthetic appeal:** With so many colours and textures to choose from, bricks can provide your specific design and aesthetic preference. In addition to this, different laying patterns can create interesting and unique facades.
- 5. Versatility:** Bricks can be used both internally and externally making them a versatile choice. They can be used alongside other building materials such as wood or stone to create eye-catching designs.

6 dedicated brick distribution hubs.

- Dematerialisation
- Fossil-Free Mobility
- Low Water Use & Circulation
- Low-energy factories
- Circular Materials
- Smart automation
- Renewable Energy
- Low/negative carbon products

At Vandersanden we are continually striving to create sustainably attractive facades and are committed to being completely CO2 neutral by 2050. Rising to this challenge means greater innovation and the adoption of even more sustainable processes, factories, products, and brick production methods.

Coated bricks, a unique Vandersanden innovation, help to reduce unsightly brick stains and gypsum efflorescence on brick facades and is just one of the ways we are ensuring the beauty of facades for generations to come.

# For something special, ask for Wienerberger

With over 250 special shaped bricks to choose from; either off the shelf or purpose made options to fit specific design requirements, Wienerberger make choosing special shaped bricks simple.

## Specials Made Simple

Special shaped bricks are specifically designed to various shapes and dimensions to complement and contrast any project.

Wienerberger stock the widest range of special bricks in the UK and also offer purpose made bricks to suit individual design requirements thanks to our market leading support services. At Wienerberger we really do make choosing special shaped bricks a piece of cake.

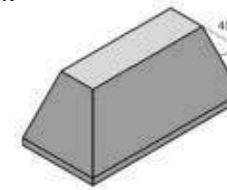

The special shaped bricks shown below are just some of the most popular products we offer but don't hesitate to get in touch to talk to us about your project if you can't see exactly what you're looking for. ## ABOUT US

TBS has an extensive and unique product portfolio which enables us to offer the perfect solution for your scheme. We have a national team of experienced sales personnel who can discuss your project in detail and recommend the best products to achieve the finished aesthetic that is being sought.

Sample panels and site reference bricks are supplied quickly from our UK based operations to assist you in the selection process. We understand the importance of choosing the right product and our comprehensive range has been developed to enable us to offer solutions across the whole of the UK, especially when addressing sensitive local planning requirements. Whether you are designing a large Commercial building, constructing a private residence or renovating a period property, we will be able to assist you.

**Bricks** - We offer an extensive range of Soft Mud, Handmade and Wirecut products, all of which are F2 frost rated and conform to BS EN771-1. Within our portfolio, we also offer longer format bricks in both 40mm and 50mm thicknesses.

**Pavers** - TBS has an inspirational range of traditional Clay Pavers, suitable for both landscaping and domestic applications.

**Cast stone** - Architectural Stone is a complimentary product to our brick offering and we supply both Wet Cast and Semi-Dry Cast Stone.

**Brick Blending** - Our partnering suppliers produce a unique range of colours, which can also be pre-blended at the works or at our Tilbury facility to provide our customers with a bespoke blend for their project.
